

# Gov't exec tied to scam

By Chelissa S. Basilio

AN UNDERSECRETARY of the Department of Finance, who used to be a senior partner at the influential Cruz and Villaraza law firm, has been implicated in the P2.5-billion tax credit scam involving Faciona and Glorio Chinglao.

Felix Chinglao, estranged brother of Isadoro and a key witness in the tax scam, has named Finance Undersecretary Ismaelino Ferrer Jr. to the investigation. He also blamed Ferrer for the slow investigation and prosecution of officials of the 11 companies owned by the Chinglao couple.

Ferrer is a former partner in the law firm with links to President Macapagal-Arroyo. He is vice chair of Special Presidential Task Force 158, the DOF-led group tasked to investigate and file cases against perpetrators of the tax credit scam that also involved 17 former DOF officials and employees.

Ferrer became Finance undersecretary in April 2002 replacing Customs Commissioner Antonio Bernardo.

The scam, which defrauded the government of some P2.5 billion in tax revenues, involved the issuance of fraudulent tax credit certificates in coordination with top finance officials.

The 11 Chinglao companies allegedly submitted spurious documents to claim the tax credits, a form of tax incentive enjoyed by en-

terprises, particularly garment companies.

The Chinglaoes later sold the spurious tax credit certificates, of which more than half went to Petron Corp. and Philippine Shell, which used the tax credits to pay their tax obligations to the BIR and Customs.

In May last year, Ferrer was accused of embezzling money from Faciona in the presence of then Finance Secretary Jose Imutan Canaicho, according to Felix.

Felix said the task force has spent P56 million but has not prosecuted anybody. He said even the extradition case against Glorio Chinglao has not progressed while his brother Isadoro is allowed to freely travel in and out of the country on P45,000 bail.

He said that upon the instruction of Ferrer, Felix completed on August 2002 the so-called affidavit of immurement, a 260-page report with 4,000 pages of documents, memorandums and evidence that should have fast-tracked the investigation and the filing of lawsuits against the 11 companies.

So far, the task force has only filed cases against four Chinglao companies before the Ombudsman.

Ferrer, however, denied Chinglao's accusation that he has hampered the investigation. He said that only last Friday, the task force filed another case against a Chinglao company before the Ombudsman but refused to give details.

# Solons slam FPJ's 40-yr 'track record'

# Fund that got Davide in trouble to be audited

By Cora Perez

THE COMPTROLLER GENERAL has ordered an audit of the Philippine National Bank (PNB) to determine if the bank's handling of the Davide family's funds was proper.

The audit will be conducted by the Office of the Comptroller General (OCG) and will cover the period from 1988 to 1991.

The OCG is the highest auditing authority in the Philippines and is responsible for ensuring that government funds are properly managed.

The PNB is the largest bank in the Philippines and has a long history of serving the Filipino people. It was founded in 1901 and has since then grown into a major financial institution.

The bank's assets are estimated to be worth over \$10 billion. It has a wide range of services, including savings, loans, and foreign exchange.

The audit is being conducted because of concerns about the bank's handling of the Davide family's funds. The Davide family is one of the wealthiest families in the Philippines and has been involved in several controversies.

The audit is expected to take several months to complete. The results of the audit will be made public and will provide a clear picture of the bank's financial health.

The PNB has expressed its confidence in the audit process and has agreed to cooperate fully with the OCG.

The audit is a necessary step to ensure that government funds are properly managed and that the public's trust in the financial system is maintained.

### Local firms In up to 10% export market

By Market Watch

Local firms are expected to see an increase in export market share, with up to 10% of their total sales coming from overseas markets. This is due to a combination of factors, including a strong domestic economy and a growing global market for their products.

The coffee industry is facing a new challenge. The U.S. government is considering a tariff on coffee imports from certain countries. This move is seen as a way to protect domestic coffee producers from foreign competition. However, it has raised concerns among coffee consumers and some industry experts. They argue that a tariff could lead to higher prices for coffee in the U.S. and potentially reduce the quality of coffee available. The industry is currently in a state of flux, with many producers and consumers watching the situation closely.

### WONKBLATCH

It's a common sight in the coffee industry. A person who is a member of the National Coffee Association (NCA) is seen at a coffee event. They are wearing a shirt that says "NCA" on it. This is a way for the NCA to promote itself and its members. The NCA is a non-profit organization that represents the interests of coffee producers and consumers in the U.S. It has been around for many years and is one of the most prominent organizations in the coffee industry.

the 1990s, the U.S. economy has been in a state of "relative stagnation," says the report. "The U.S. economy has been unable to generate the sustained, strong growth that has characterized the economies of other major industrial nations."

It is possible, though, that the lack of an effective international system to regulate the use of nuclear weapons is a result of the fact that the world is not yet a global village. The world is still a collection of many small, separate states, each with its own interests and priorities. FROM THE CHURCH TO THE ACADEMY

## Exhibit traces roots of art and museum movement

By John Paul Sena  
Illustration

THE HISTORY OF THE MUSEUM is the history of the church. This is the message of the new exhibit, "The Church and the Academy," which traces the roots of the art and museum movement from the church to the academy. The exhibit is a collaboration between the National Museum of Art and the National Museum of Natural History, and it is the first of its kind in the United States.
